

**REMARKS**

Claims 32 through 34, 36, 38, 39, 44 through 46, 50 and 51 are currently allowed in the application.

This amendment is in response to the Notice of Drawing Inconsistency with Specification dated April 23, 2004.

Applicants have amended the specification to comply with the requirement for corrected drawings/specification to clearly set forth a description of drawing Figures 12 through 15. Applicants assert that 35 U.S.C. § 132 has been complied with as no new matter has been introduced into the disclosure of the invention as specification paragraphs have been added to describe Figures 12 through 15.

Applicants assert that the application should now be in condition for publishing.

Respectfully submitted,
